

European Journal of Neurodegenerative Diseases

Vol. 4, No. 1, January - June, No. 2, July - December, 2015

CONTENTS

G. Di Benedetto, O. Valerio, G. Tafet, N. Ronsisvalle, R. Di Mauro, G. Fuccio Sanzà, G.R.M. Saccani-Jotti, R. Bernardini and G. Cantarella. A novel TRAIL to neuroinflammation: common clues to neurodegenerative disorders	1
M. Gabrielli and C. Verderio. Microglial microvesicles alter excitation-inhibition balance in the brain	17
M. Di Paolo, D. Ghezzi, M.R. Antognazza, M. Mete, G. Freddi, I. Donelli, R. Maccarone, G. Pertile, G. Lanzani, F. Benfenati and S. Bisti. Inflammatory and morphological characterization of a foreign body retinal response	23
C. Alia, C. Spalletti, S. Lai, A. Panarese, S. Micera and M. Caleo. Innovative robotic and automated tools for assessment of motor recovery in stroke mouse models	29
M. De Maria, M.V. Soldovieri, F. Miceli, P. Ambrosino and M. Tagliatela. Neutralization of the second arginine along the S4 segment of Kv7.2 potassium channel subunits produces gain-of-function effects and causes epileptic encephalopathy	41
